

Energy Casualty

A one-source provider of broad energy coverage

Backed by an "A+ XV" rated carrier, DUAL's Energy Casualty program offers both primary and excess cover for oil and gas, alternative energy, renewable resources and other risks that support the industry.

Our adept Energy Casualty team is experienced in navigating the three segments of the oil and gas industry (upstream, midstream and downstream), acting as a one-stop solution to energy coverage needs. We also span the spectrum of risks in alternative energy, renewable resources and ancillary risks that support the industry, designing tailored solutions for a range of energy casualty risks.

Key features

- Admitted and non-admitted
- Available nationwide
- A.M. Best "A+VX" rated carrier
- Primary limits – \$2m/\$4m/\$4m
- Excess limits up to \$5m
