

Product Contamination

**Multiple balance sheets.
One policy. One payment.
One solution.**

Our Product Contamination program provides comprehensive protection for manufacturers, wholesalers, retailers, importers and distributors to manage threats to their products, brands and financial strength.

As your trusted risk mitigation partner, our specialists tailor coverage that helps businesses manage the unique threats they face, including accidental contamination, malicious tampering, product extortion, government recall and adverse publicity. With leaner supply chains and global distribution disruptions increasing recall risks – particularly in the food and beverage industries – our coverage ensures a safeguarded reputation and bottom line.
