

## Ransomware supplemental application

| Ema                           | Email security   |     |    |  |  |
|-------------------------------|--|-----|----|--|--|
| 1.                            | Do you pre-screen e-mails for potentially malicious attachments and Links?   | Yes | No |  |  |
| 2.                            | Do you have an e-mail "quarantine service" accessed by all users?  | Yes | No |  |  |
| 3.                            | Do you have the capability to determine if an attachment is malicious prior to the delivery to the end-user?             | Yes | No |  |  |
| 4.                            | Do you have a "Sender Policy Framework" related to incoming e-mails?   | Yes | No |  |  |
| 5.                            | Is Phishing Training conducted for all staff?  If so, how often?   | Yes | No |  |  |
| 6.                            | Do you use Multi-Factor Authentication (MFA) when accessing e-mail remote?   | Yes | No |  |  |
| 7.                            | If your organization uses Office 365 do you utilize the Threat Protection add on?  | Yes | No |  |  |
| Internal security             |  |     |    |  |  |
| 8.                            | Do you use an "End Point Protection" Product across your organization? Including Detection and Response?                 | Yes | No |  |  |
| 9.                            | Do you use Multi-Factor Authentication (MFA) to protect all users?   | Yes | No |  |  |
| 10                            | . What percentage of your organization is covered by scheduled vulnerability scans?                                      | Yes | No |  |  |
| 11                            | . In what time frame do you install critical patches across your organization?   | Yes | No |  |  |
| 12                            | . Do your users have local administrative "rights" on their computers?   | Yes | No |  |  |
| 13                            | . Is a Password Management Software (such as "Dashlane") provided?   | Yes | No |  |  |
| 14                            | . Are your security operations "in-house" or "outsourced"?   | Yes | No |  |  |
| Back up and recovery policies |  |     |    |  |  |
| 15                            | . Are all back up systems encrypted?   | Yes | No |  |  |
| 16                            | . Are your back up files kept offline, or in a Cloud Service?  | Yes | No |  |  |
| 17                            | . Have you tested restoration and recovery of key server configurations and data from backups in the last six (6) months | Yes | No |  |  |
| 18                            | Are you able to test the integrity of backups prior to restoration to be Confident it is free from malware?              | Yes | No |  |  |

If your organization takes any additional steps to detect and prevent ransomware attacks (e.g., Segmentation of your network, software tools, external security services, etc.) please list below:
