DUAL

Surveillance video retention backup

Mooring Companies is pleased to provide the following exclusive DUAL North America offering:

One year of free cloud storage for four cameras

- Real-time system failure alerts

- Easy to use, universal CMS software. Allows you to view the status and manage all your servers and cameras from one place using one application

- 256BIT AES encryption at rest and during transfers

- Triple level redundancy when using on-site and off-site options

- Easy retrieval utilizing AI without having to upgrade camera (includes object detection, license plate recognition and text searching)

- Compatible with all technologies (IP, CVI, TVI, SDI, and most analog)

- No additional hardware needed - 30 minute setup
- Get the most out of your camera's functionality
- Immediate retrieval anywhere, at any time
