

# Specialty Construction & Transport

## Premier multi-line coverage for heavy industries, backed by insider expertise

Equip your clients with comprehensive insurance solutions built for the unique challenges of heavy industry, including safety training, contract management, telematics solutions and more.

With decades of firsthand industry experience, our coverage is purpose-built for the high stakes demands of crane and rigging, concrete pumping, specialized transportation and equipment rental and dealers. Our team derives expertise from years of standing in our policyholders' boots to deliver not only custom insurance solutions, but also risk control services and proactive claims management.

### Key features

- Specialty commercial insurance for crane and rigging, concrete pumping, and heavy haul vehicles
- Proactive claims management
- Risk management services, including:
  - Online driver training
  - Contract management

#### Crane and rigging

- General liability coverage addressing unique crane and rigging exposures
- Custom riggers liability
