

DUAL

Workers Compensation

Energy and Construction

Tailored Workers Comp solutions for energy and construction

Our team of Workers Comp specialists delivers comprehensive solutions for a wide range of risks and industries including energy, industrial, environmental, utility, construction and specialty trades.

Available as a standalone placement or as a companion to other DUAL products, this program offers bespoke coverage for uniquely challenging exposures in high-risk industries. With deep knowledge of various exposures and flexible placement options, our solutions empower employees and businesses with top-tier protection, backed by A+ XV rated capacity.
